DETAILED ACTION

Allowable Subject Matter

1. Claims 45-82, 84-87, 89, and 90 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not disclose nor render obvious a device that measures and accounts for the total amount of liquid added to or consumed from a tank. The present invention is in contrast with most liquid level devices in that is concerned with a total amount of liquid that has been in a container, while the prior art level measurement devices are concerned with an amount of liquid in a container at a particular moment in time, without a true regard, for example, of how much liquid total has been used from or placed in the container over a period of time. This limitation, in combination with the other limitations of the independent claims, is not disclosed or deemed obvious in view of the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
